- The room not only smells fresh and clean, it really is
- Eliminate odours, smoke, and chemicals
- Portable, easy to transport for purer air where you need it
- Reduces bacteria, viruses, mould, and other contaminants
- Industrial strength: a serious solution for serious problems
- Programmable timer in 10 minute increments or continuous use
- Intended for use in unoccupied spaces
- Chemical-free technology
- Portable – Powerful – Fast – Chemical Free

Product Features:

- Programmable Timer
- Audible Status Alarm
- Push Button Control
- UV Lamp Life Meter
- Lamp Replacement Indicator – Lamps rated for 9000 hrs
- Removable Carrying Strap
- 4 metre Power Cord with plug
- Ceiling or Wall Mount Kit

Examples of existing users:

- Hotel Football – Manchester
- Intercontinental Group
- Hyatt Regency
- Sheraton Group
- Novotel Group

Applications:

- Hotel Rooms for deodourisation
- Odour Abatement
- Animal Odour Removal
- Smoke Removal
- Mould Control
- Rental Property Maintenance
- Restrooms/Washrooms
- Flood Repair
- Food Storage
- Rubbish Collection / Processing
- Vehicle Restoration

What it does:

- Tackles odours effectively, leaving a fresh smelling area
- Eliminates odour-causing bacteria in the air and on surfaces
- Chemical free
- Cheap to run (approx. 2p per treatment)

Where to place/how long should it be used for:

- Place the unit on a table/flat surface in the area concerned
- Before use, shut all windows and vents to allow the MPZ to work efficiently
- Normally set for 30 mins on the timer
- Do not enter the area for another 20 mins after use
- Open windows/turn on air conditioning
- Repeat treatment cycle if odours persist
